Social Development and Livelihood Programs

Achieve Universal Primary Education is United Nation's goals for 2015. VSSU contributes modestly to these objectives by focusing on education in its area. We believe in early-primary which is an extremely strong way to create strong and social academic skills but also habits as early as possible.

Early on, VSSU had become aware of the need to protect the environment, moreover, a first activity was a nursery which has benefited to all the Community). VSSU wants to convey that message to the Community through programs of rural and eco-tourism.

VSSU's vision is "Community development through Community resources". In order to achieve its vision, it is our duty to provide all aspects of life development. Every year, we set targets to advance our goals and drive results.

Rural Bengal is considered as one of the poorest part of India and 70% of the population lives below the poverty line. Since its inception, VSSU has fully committed itself to addressing extreme poverty and has developed livelihood programs in order to meet the most basic needs.
